CAREER OBJECTIVE

Motivated Computer Science and Engineering graduate specializing in Artificial Intelligence and Data Science, with hands-on experience in HTML, CSS, JavaScript, Python, Django, React.js, SQL, NLP and Machine Learning. Experienced in web development, backend development, full-stack web applications and AI-powered projects. Seeking an entry-level Python Full Stack Developer, Web Developer, Backend Developer or Software Developer role to apply technical skills and build scalable solutions.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL
Frontend Technologies: HTML5, CSS3, React.js
Backend Technologies: Python, Django, Flask, Debugging, Object-Oriented Programming (OOP)
Databases: PostgreSQL, Oracle SQL, MS SQL
AI / Machine Learning: Machine Learning, NLP, TF-IDF Feature Extraction
Tools: VS Code, Git, GitHub
Soft Skills: Communication, Problem-Solving, Adaptability, Time Management

EDUCATION

Satya Institute of Technology and Management — Andhra Pradesh, India
B.Tech – Computer Science and Engineering (AI & Data Science); CGPA: 7.18 — November 2022 – April 2026

Government Junior College — India
Intermediate (MPC); CGPA: 6.12 — June 2020 – April 2022

Z.P.H. School — India
SSC; CGPA: 9.8 — April 2020

INTERNSHIP EXPERIENCE

QSpiders — India
Python Full Stack Development Intern — May 2026 – October 2026

- Worked with HTML, CSS, JavaScript and React.js to develop frontend components and responsive interfaces.
- Worked with Python and Django for backend development and application functionality.
- Practiced SQL database operations and full-stack application development.

HMIES — Remote
Web Development Intern — May 2025 – July 2025

- Developed responsive and user-friendly web applications using HTML, CSS and JavaScript.
- Implemented frontend and backend functionality and tested application components to resolve technical issues.

ULearn — Remote
Python Programming Intern — June 2024 – July 2024

- Developed Python scripts for automation and data-processing tasks using functions, loops and data structures.
- Applied debugging and exception-handling techniques to improve program reliability.

PROJECTS

SkillBridge AI – AI-Powered Job Portal | Live Demo — May 2026 – September 2026
Python, Django REST Framework, React.js, PostgreSQL

- Developed a full-stack job portal with secure authentication, job listings, and application tracking.
- Implemented resume analysis, skill identification, AI job matching, and interview preparation.
- Deployed frontend and backend using Render.

Ads Click Fraud Detection | Live Demo — December 2025 – April 2026
Python, HTML, CSS, JavaScript, NLP, Flask, Machine Learning

- Developed a Machine Learning system to classify fraudulent and legitimate advertisements using NLP and text preprocessing techniques.
- Applied TF-IDF feature extraction and trained classification models to achieve 99.62% accuracy.
- Developed a Flask-based prediction dashboard with web technologies for advertisement classification.
